

TIMKEN

Delivering the Value

Timken solutions for Automotive Aftermarket

Timken supports commercial vehicle manufacturers, fleets and installers as well as medium-duty truck owners and operators with products and technical resources designed to maximize performance and uptime.

Timken works with the world's leading OEMs to engineer power-dense, fuel efficient bearing solutions that help enhance reliability and performance. Our line of OE solutions covers transmissions, axles and wheel ends applications.

As a leader in the automotive aftermarket, Timken also support professional technicians and do-it-yourself installers through our authorized channel partners. Our products and technical resources are designed to maximize performance and uptime.

We engineer products to help you stay on the road longer – with an extensive line of premium wheel hub units, bearings and seals that covers 95% of vehicles on the road today.
